Dear Renata Hesse, Trial Attorney:

I wish to add my voice to the concerns over the proposed settlement of the Microsoft Antitrust Case. I believe that Microsoft has made it extremely difficult for anyone to purchase a computer without using Microsoft operating systems and software. Because of their marketing strength, they have been able to make almost all computers sold in the US dependent on their operating systems and software. This proposed settlement does not deal with the basic issue of the case: the stifling of competition in the operating system market. Please do not allow this to go through.

Thank you,

K.A. Dolan
